

GermBuster™ Sabre

High-Intensity Far-UV Disinfection System

The GermBuster™ Sabre from Sterilray is a high-intensity Far-UV disinfection system engineered for rapid pathogen mitigation in commercial, healthcare, industrial, and specialty environments. Utilizing advanced 222nm excimer lamp technology, the system delivers concentrated air and surface disinfection performance while remaining safe for occupied environments within established exposure guidelines.

Key Features

- High-intensity 222nm Far-UV excimer lamp technology
- Continuous air and surface disinfection
- Directional high-output design
- Designed for targeted environmental disinfection
- Mercury-free and chemical-free operation
- Commercial-grade continuous-duty construction
- Instant on/off full-power performance
- 30,000+ hour prorated lamp life warranty

Technical Specifications

Category	Specification
Lamp Technology	Far-UV 222nm Excimer
Application Type	High-Intensity Air & Surface Disinfection
Operation	Continuous Occupied-Space Pathogen Mitigation
Power Supply	100–270V AC 50/60 Hz
Mounting Options	Ceiling / Wall / Equipment Integration
Housing Material	Powder-Coated Aluminum & Stainless Components
Environment	Commercial, Healthcare & Industrial Facilities
Lamp Life Warranty	30,000+ Hours (Prorated)
Power Supply Warranty	1 Year Parts and Labor

Ideal Applications

Hospitals • Laboratories • Industrial Processing Environments • Pharmaceutical Manufacturing • Transportation Hubs • Food Processing Facilities • Commercial Buildings • High-Traffic Public Areas
