

GermBuster™ eSconce 150 (13")

Architectural Far-UV Disinfection Fixture

The GermBuster™ eSconce 150 from Sterilray is a premium architectural Far-UV disinfection fixture engineered for continuous air and surface pathogen mitigation in occupied indoor environments. Utilizing advanced 222nm excimer lamp technology, the system provides powerful continuous chemical-free disinfection while remaining safe for human exposure within established exposure guidelines.

Key Features

- 222nm Far-UV excimer lamp technology
- Continuous air and surface disinfection
- 13-inch architectural fixture configuration
- Designed for occupied commercial environments
- Mercury-free and chemical-free operation
- Low-profile architectural appearance
- Instant on/off full-power performance
- 30,000+ hour prorated lamp life warranty

Technical Specifications

Category	Specification
Power Consumption	150W
Fixture Size	13" Architectural Configuration
Lamp Technology	Far-UV 222nm Excimer
Application Type	Air & Surface Disinfection
Operation	Continuous Occupied-Space Pathogen Mitigation
Power Supply	100–270V AC 50/60 Hz
Mounting	Wall / Ceiling Installation
Housing Material	Powder-Coated Aluminum
Environment	Commercial Indoor Occupied Spaces

Lamp Life Warranty	30,000+ Hours (Prorated)
Power Supply Warranty	1 Year Parts and Labor

Ideal Applications

Hospitals • Offices • Hotels • Schools • Waiting Rooms • Retail Spaces • Government Buildings • Long-Term Care Facilities • Public Corridors
